

6th Paediatric Infectious Disease Training Course

CHUV, Lausanne

March 20-21, 2020

OBJECTIVES

The sixth PIGS training course focuses on reviewing essential and up-to-date Paediatric Infectious Disease knowledge mainly for paediatric residents. Teachers are experienced Paediatricians and PID specialists. Detailed handouts of each presentation will be available online for participants.

This training course is made possible by financial support granted by the European Society for Paediatric Infectious Disease (ESPID)

and does not receive funding from the pharmaceutical industry.

The course language is English
